EDUCATION

Symbiosis Institute of Technology

B.Tech in Computer Science - CGPA: 7.71

Pace Junior Science College, Thane

HSC - Percentage: 68% - JEE MAINS SCORE - 90.33%

D.A.V. Public School, Airoli

CBSE - Percentage: 96.6%

Expected June 2027

Pune, India

July 2023

Thane, Maharashtra

May 2021

Airoli, Maharashtra

SKILLS

Methodologies: Agile, SDLC

Data Visualization: Python, Microsoft Excel, Tableau

Database: MySQL, MongoDB

Programming Languages: Java, Python, SQL, JavaScript, C, C++

Web Development & Tools: HTML, CSS, React.js, Node.js, Express.js, REST APIs, Git, Postman

Soft Skills: Leadership, Communication, Cross-functional Collaboration, Problem Solving, Decision-Making, Time Management

PROJECTS

ADVANCED MALWARE DETECTION SYSTEM - Java, JavaFX, MySQL, LLaMA 3, AI

- Developed an AI-driven malware detection system using Java, JavaFX, and MySQL, integrating static code analysis, sandboxed execution, memory forensics, syscall tracing, and network monitoring.
- Integrated LLaMA 3 to detect threats in PE and APK files with automated threat intelligence fetching and analysis.
- Implemented heuristic and AI-based techniques to identify obfuscated and polymorphic malware and built a Threat Intelligence Feed for malware signatures and reporting.
- Conducted malware risk assessment using behavioral analysis, sandboxing, and AI-based threat detection.

FITNESS AI TRAINER - Python, OpenCV, NumPy, Matplotlib

- Implemented YOLOv8 for real-time pose detection and joint angle calculation to monitor posture.
- Developed feedback mechanisms to guide users in maintaining correct posture during exercises.
- Built an interactive user interface to improve usability and workout efficiency.

PNEUFED – Federated Pneumonia Detection - Python, PyTorch, CNN, Streamlit

- Developed a federated learning framework for pneumonia detection using ResNet18 CNN on chest X-ray images.
- Implemented FedAvg aggregation across multiple simulated hospital clients while preserving data privacy.
- Designed a hospital-side web interface for patient data entry and AI-based X-ray analysis.

EXPERIENCE

Website Development Intern

Akshar Paaul

June 2025 - Dec 2025

Pune, Maharashtra

- Developed a gamified learning platform by collaborating with cross-functional team members to deliver features including notes, quizzes, and flashcards that improved student engagement.
- Built teacher dashboards for performance tracking, enabling data-driven decision making and improved accountability.
- Designed scalable solutions following software development best practices to support the NGO's future expansion.

EXTRACURRICULAR

- Awarded Best Player twice in Kho-Kho (PROTA), secured 2 Gold Medals, and achieved 1st Position in Badminton and Dodgeball.
- National-level Kho-Kho athlete demonstrating teamwork, discipline, and adaptability under pressure.
- Event Executive, Codex Club – Managed large-scale technical events ensuring process control and accountability.
- Design Team Member, Reverb (Cultural Fest) – Contributed to creative design and event branding.
